JOHN E. ANTHERS,

*Treasurer Library Trustees.*

---

We, the undersigned, have examined the foregoing accounts and find them correct and properly vouched.

GEORGE B. ROGERS,  
NEIL B. PHILBRICK,

*Auditors.*

# Report of Library Trustees

---

## *To the Citizens of Rye:*

The appearance of the library building has been greatly improved by the addition of an appropriate sign designed by Mr. William L. White, architect, and executed by the William Ross Company of Boston. This much desired finishing touch consists of a relief of the town seal in color as a decoration for the tympanum and the words "Public Library" in gold on the frieze below. A fresh coat of paint was given the front wood-work of the building at the same time.

The Trustees express their appreciation of the generosity of the Every Other Tuesday Club, which has presented a mounted globe and also two books, "Sunny Meadows" and "A Mountain Road," by Thomas Dreier. The pen used by Governor Bridges in signing House Bill Number 450 for the improvement of Rye Harbor has been placed in the cabinet,—the gift of Mr. Walter Marston.

We ask an appropriation of \$1,000 to cover the budget for the coming year.

Respectfully,

HELEN F. PHILBRICK,  
WILLIAM H. LOCKE,  
JOHN E. ANTHERS,

*Trustees.*

# Report of Librarian

---

*To the Trustees of the Rye Public Library:*

The following is the report of the library for the year 1935:

Number of volumes in 1934.....	8660
“ “ added in 1935.....	607
Largest circulation.....	450
Smallest circulation.....	65
Total circulation.....	15,985
Increase in circulation.....	663
Money from fines.....	\$18.24
“ spent for supplies.....	17.00

A traveling exhibit of modern art belonging to the State Library, has been shown for two weeks. Among the artists represented were: Céyanne, Homer, Rockwell Kent, Monet and Van Gogh.

Books may be borrowed from the State Library by paying charges one way. Lists of some of these books, published twice monthly, will be found on the bulletin board.

The library has been greatly aided by several gifts of books. The outstanding gift being that of Mrs. Paul Hyde Bonner.

Seven of the Girl Scouts required to do eight hours' public service work for credits, were allowed to come to the library and work their allotted time in pasting, stack work, etc.

Reports show a decrease in circulation in many of the libraries, but the final checkup on the weekly output shows for us a decided increase over last year's circulation.

The same number of magazines have been subscribed for including a renewal to the *Parents Magazine* through the Women's League of Voters.

Respectfully submitted,

HELEN C. DRAKE,

*Librarian.*

# Report of Trustees of Trust Funds

---

RYE, N. H., February 1, 1936.

*To the Citizens of Rye:*

A study of the tabulated report of the Trust Funds submitted herewith shows a modest increase in the principal amount of such funds, due largely to the establishment of new trusts, all of which have been for the care of cemetery lots.

The trustees feel that all cemetery lot owners, whenever financially able to do so, should give serious consideration to the creation of Trust Funds to provide income for the annual care of their lots and should not indefinitely delay or entirely default this important act. The cemetery has been kept in better condition the past year than ever before and it is expected further improvement will be shown the coming year. Only the hearty and complete co-operation of all lot owners can produce the most satisfactory appearance of the cemetery as a whole.

Two quite definite trends or conditions should be noted by all persons interested in the cemetery. First, the income from the allowable legal investments for Trust Funds is rapidly diminishing and promises to remain low for some years; and second, the cost of labor over the years has shown a general tendency to increase. During the early years of the cemetery the income from a fund of one hundred dollars was considered ample for the yearly care of a single sixteen-foot by twenty-foot lot. Due to the combination of conditions above set forth single lots should be provided with the income of at least one hundred and fifty dollars endowment. Five hundred dollars is still sufficient for a full square of four single lots.

We would again call to the attention of all friends of Rye a suggestion made several years ago to the effect that Rye is fortunate in having an unusually good library and that the same is worthy of increased endowment.

Respectfully,

SHIRLEY S. PHILBRICK,  
AGNES M. BROWN,  
ELDRED W. MARSHALL,

*Trustees of Trust Funds.*

Balance June 30, 1935. . . . . \$149.80

AGNES M. BROWN,

*Treasurer.*

We, the undersigned, have examined the accounts of the School District treasurer and find them correct.

NEIL B. PHILBRICK,

GEORGE B. ROGERS,

*Auditors.*

## Report of School Board

---

The school board wishes to acknowledge the following gifts to the Consolidated School.

Two fire extinguishers, a most practical gift by Mr. Thomas Parsons.

Eight electric clocks for the class rooms and main hall from Rye Grange, these have been most convenient for the change of classes by keeping all rooms on the same time.

We appreciated the response to the call for assistance last June when it was desirable to improve the school grounds. We wish to thank again all who took part in this work and those who gave the use of trucks and other machinery. Much was accomplished and with no expense to the District.

It is our hope that the same spirit will be manifest this spring and that we can complete the project. A member of your board worked out a plan and specifications for the improvement of the front grounds.

The driveway which makes a safe approach for the bus and the two sections of walk way to the steps help in reducing the amount of dirt carried into the building.

The grading of the Wedgewood School cellar making it much safer for the children playing, as well as more attractive.

The above improvements was carried out by the Highway Department of the town under Mr. Dechene.

Two sets of out of doors basketball stands have been so placed that upper and lower grades can use them.

We believe that exercise at recess and at noon is most essential for the health and morale of the school.

It was found advisable last summer to re-surface the grade room floors, the building having had one year to shrink under steam heat and natural causes, we now believe that with careful waxing there will be no immediate need for re-surfacing.

Due to the increase of pupils it became necessary to purchase additional desks with chairs.

This increase in school attendance can be due to several

reasons, we do know that a new school building appeals to all parents.

Our State Department of Health does not recognize the common fly as a menace to the health of our school children. If the fly is not a menace it is a great nuisance. We have placed two screens in one of the class rooms as an experiment, and we believe that it is desirable to have more. If this is done, we have been given to understand that there will be no other school building in New Hampshire with window screens.

After study and investigation it seemed advisable to place weather strips on the windows. A most satisfactory price given by the Chamberlin Metal Weather Strip Company and their co-operation in installing strips on week-ends decided the matter.

A record of room temperature since installation has satisfied us that there will be a material saving in coal.

We have had trouble with our ventilating system in the building, after experimenting in the control we regret to state that we are not at all satisfied, but we hope that during the coming summer some simple change can be made and greater efficiency derived from the system.

We are in the last half of the second year of our consolidated school, many difficulties have faced us and have been overcome to a great extent.

We feel that there should be no regret in your decision to build a consolidated school.

Under Mr. Gillmore and Mr. Gray with his able corps of teachers we have every reason to believe that Rye has made an advance in its school system.

We wish to thank you for your generous support, your indulgence and your constructive criticism.

A. B. DRAKE,

*Chairman School Board.*

The following is our school budget for the year 1936-1937:

Salaries of district officers.....	\$205.00
Superintendent's salary.....	328.12
Truant officers and census.....	25.00
Expense of administration.....	200.00
Teachers' salaries.....	7,200.00
Text books.....	300.00
Other expenses of instruction.....	50.00
Scholars' supplies.....	350.00
Janitor's salary.....	1,000.00
Fuel.....	550.00
Water, light, janitors' supplies.....	310.88
Minor repairs.....	400.00
Health supervision.....	325.00
Transportation.....	1,760.00
Tuition.....	7,500.00
Per capita tax.....	396.00
New equipment.....	400.00
	<hr/>
	\$21,300.00

# Report of Superintendent of Schools

---

*To the School Board of Rye:*

I herewith present to you my sixth report as superintendent of your schools:

A noted educator has said, "We spent the past fifty years in carefully grading children, we shall spend the next fifty in as carefully ungrading them." The grade system of organization divides all elementary school children into eight groups. This grouping was done as an economy measure—economy in financing and economy in organization. But it is highly erroneous to believe that there are but eight different groups of children in our schools. In fact as scientists tell us there are no two plants alike, so there are no two children just alike. We shall probably have to continue the nomenclature of grades and classes, but the modern teacher considers each child as an individual apart from his classification. We, in Rye, have been continually striving toward this goal. The problems of each pupil are considered peculiar to himself and apart from those of his group.

This year as an added service for pupils below the junior high level we have offered two new courses. To the girls of grades five and six we now give some cooking and sewing. This affords to a new group of pupils the opportunity to excel in their school work and a contact with a consciousness of success. On the other hand, those pupils strong in book learning derive renewed incentive from an entire change of learning activity. We believe it is in accord with our policy of individual instruction that the boys of the fifth and sixth grades are offered a course in woodwork. All boys should be familiar with the simpler tools and should come into contact with them as soon as their interest can be aroused and they are capable of developing a certain degree of skill in their use. Rye is to be congratulated upon these two courses.

Limiting the field of the teacher's instruction permits a more intensive preparation for each subject and a more personal

attention to each pupil. A teacher, having the same child in the same subject for four years, will understand the child's difficulties from year to year and thus eliminate the period of unprofitable adjustment which must take place for a time when new pupil and new teacher must become adjusted to each other. For these reasons, I believe the departmentalization of grades five, six, seven and eight is a move toward economical instruction in your schools.

From the two preceding paragraphs it will be noticed that our organization in Rye is, in form, a junior high school consisting of grades five to eight.

The first of the seven cardinal principles of education is Health. Rye is following this objective in a most efficient way. Our playground equipment is unsurpassed by any school of its size in the state. This equipment is being continually enlarged. During the current year two additional outdoor basketball courts were built. The floor of the assembly room has also been marked off so that indoor games may now be played with neighboring schools. These are important in developing the morale of the organization. In the junior high school this activity is under the direction of Miss Edwards and Mr. Gray. However, more important to the student body as a whole is the daily exercise period which is allotted each room as a part of its regular daily schedule.

During the current year we are attempting a closer and more efficient testing program in the schools of Rye. The first step in this program is the giving of complete tests at least twice each year, with additional partial tests as needed. In early autumn we ascertain where each pupil is scholastically and, in June we examine his fitness for promotion. The first series aids the teachers in finding more definitely where each pupil needs help and therefore will furnish a guide for the year's work. The second series will help determine the degree of success attained by the pupil. Such a procedure guarantees that the progress of the school will be accurately charted and as a result remedial measures can be accurately directed.

Often schools are so engrossed with the task of developing certain skills and knowledges in their pupils that the more important objective of developing a sense of true ethical values is overlooked. This is not true in Rye. One of the most valuable activities in the school is an informal club which, under the direction of a skillful teacher, enlists the interests of our girls in questions of social procedure and ethical principles. Of this club Mrs. Seavey says: "A character training club for girls was formed last year when the girls spent a large part of the time discussing how to appear in public, the proper thing to do in different situations and matters pertaining to dress. This year they have devoted the time in training for worthy use of leisure and discussing faults which they themselves have, and how they might overcome them.

It gives me unusual pleasure to report to the people of Rye the results of intensive drill in the four fundamentals of Arithmetic in your schools. For three weeks the pupils of the four upper grades were drilled in the processes of addition, subtraction, multiplication and division. Tests given at the beginning of this period showed the standing of each pupil at that time. After the three weeks work a test of similar difficulty was given. It was thus proven that grades five, six and seven had each advanced twenty per cent. in accuracy and that grade eight had advanced from a percentage of eighty in the first test to  $96\frac{1}{2}$  in the second with twelve pupils having a perfect score. This is a record of which to be proud. This work was done under the direction of Miss Edwards.

The policy of this supervisory union has been to have at least two meetings a year at which the teachers of the seven towns might meet to talk over their common problems. At these meetings, teachers are asked to lead discussions upon various fields of education in which their experience has been especially valuable. On October 30 of the current year such a meeting was held. Rye was represented by two speakers, Mrs. Cockery, discussing "Handwriting in the Lower Grades," and Mr. Gray, "Preparing pupils for High School."

Last spring the pupils of Rye presented an operetta entitled "The Love Pirates of Hawaii." The children taking part worked faithfully upon the production and deserved and received much praise for their efforts. This is the first time an activity of this kind has been attempted in recent years. I believe it should be continued. Such projects have a value far beyond the pleasure of the moment.

Courses in the theory of domestic arts are good. Courses in the practice of domestic arts are far better. It is this second type of course our girls are receiving in Rye. Book knowledge is adequately supplemented by practical application. The pupils learn not only how to serve meals, but actually serve them. They are learning not only to preserve fruit and vegetables, but each girl is canning a specified amount of these products. They learn not only how to make a room decorative, but really apply that knowledge. A visit to our domestic arts room which has been made attractive and homelike by our girls will convince any citizen that our pupils not only learn theory but apply knowledge.

That the people of Rye are interested in their schools is demonstrated by the numerous gifts presented by the different organizations of the town. A strong Parent-Teacher Association is further evidence of this interest and support of the training of their children. Such co-operation can have but one result—continually improving standards in your schools.

I wish again to express my thanks to the school board for their help and guidance in the duties of my office.

Respectfully submitted,

ROY W. GILLMORE,

*Superintendent of Schools.*

February 10, 1936.

Dental examination by Dr. Hanrahan. ....	151
--	-----

More co-operation is needed on the part of the parents in regard to colds. The slightest cold should not be neglected. Most contagious diseases start with symptoms resembling a cold, and a child coming to school exposes other children, and an epidemic cannot be avoided. Treat a cold immediately. Do not let it wear off.

May I thank the school board, superintendent of schools, parents, teachers, and all who assisted with the health of the school child.

Respectfully submitted,

ANGELA DOLBEC, R. N.
